

LANGSTONE

HARBOUR BOARD

**LANGSTONE HARBOUR
LOCAL NOTICE TO MARINERS NO. 08 OF 2024**

Real-time Tide and Wind Information Now Available Online

Mariners are advised that real-time tide and wind information being measured by instrumentation installed adjacent to the Harbour Office is now available online.

A link to this page can also be found through the Langstone Harbour Website:
<https://www.langstoneharbour.org.uk/realtime-weather>

Langstone Harbour Board is extremely pleased to have partnered with OceanWise in the installation of equipment and a cloud-based data platform to support ongoing harbour operations and environmental monitoring. This important installation will provide the harbour with tide and weather readings which will be freely available to all harbour users.

Accurate assessment of tide and wind conditions is an essential part of good seamanship, especially in shallow harbours such as Langstone. Harbour users are encouraged to incorporate this information into passage planning and before undertaking any activity on the water.

Enquiries or requests for historic data should be sent to the harbour office at admin@langstoneharbour.org.uk for the attention of the harbour's Environment Officer.

Owners, Agents, Charterers, Marinas, Yacht Clubs and Recreational Sailing Organisations should ensure that the contents of this Notice are made known to the Masters or persons in charge of their vessels or craft.

B Johnson, Harbour Manager

Harbour Office, Ferry Road,
Hayling Island, Hampshire, PO11 0DG
