DECLARATION OF ELIGIBILITY TO PURCHASE REBATED FUEL OIL

This declaration is valid until 1 January 2026. It is the responsibility of the owner of the vessel to renew the declaration. Unless a valid declaration on Form CR1 is held by the Board prior to supplying fuel oil the vessel will not be considered an "eligible vessel" for this purpose.

DECLARATION TO BE COMPLETED FOR PRIVATE PLEASURE CRAFT ONLY

I declare that 60%* of the fuel purchased will be used for propelling the above private pleasure craft. I am aware that the Hydrocarbon Oil Duties Act 1979, which permits the use of marked diesel to propel private pleasure craft, only applies within UK waters. I acknowledge that nothing in that Act, or the making of this declaration, affects any restrictions or prohibitions that may apply to the use of fuel for propelling private pleasure craft outside UK waters, including any restrictions or prohibitions under the law of another country that apply within the waters of that country.

* There is no fixed allowance. However, analysis by both the industry and HMRC suggests that a split of 60% for propulsion and 40% for domestic use (heating, cooking etc) probably reflects most people's use
